SUMMARY

MERN-Stack Developer specializing in building scalable, production-ready web applications. I apply architecture patterns like component composition, Container-Presenter, custom hooks, and Provider — to write clean, modular, and maintainable code across the full stack.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript | **Libraries & Frameworks:** React, Vue, Next.js, Node.js, Express.js | **Databases:** MongoDB, MySQL, PostgreSQL | **Auth & APIs:** REST APIs, JWT, Firebase Auth | **State & Styling:** TanStack Query, Tailwind CSS, SASS | **Tools:** Git, Stripe, Docker.

EXPERIENCE

Softivus Tech Wizards

Frontend Developer

Uttara, Dhaka, Bangladesh

Jun 2025 – Present

Started as a 3-month intern (Jun–Aug 2025) and promoted to full-time in Sep 2025.

- Delivered the full frontend of a production Next.js real estate platform by owning all UI implementation and collaborating directly with the backend developer to integrate REST APIs, resulting in a fully functional client-ready product.
- Converted Figma designs into clean, responsive HTML/CSS/JS interfaces by following accessibility, SEO best practices, and cross-browser compatibility standards across all deliverables.
- Produced 2 ThemeForest-approved HTML templates and 1 CodeCanyon-approved Next.js application by meeting each platform's quality, cross-browser compatibility, and code standards.

PROJECTS

FHR World — Micro-Investment Real Estate Platform

<https://fhrworld.com>

Next.js, Tailwind CSS, Custom Auth, REST APIs, Multiple Payment Methods

- Built the complete frontend of a production micro-investment real estate platform by implementing property listings, an investment dashboard, custom authentication, and multiple payment method integrations, delivering a handoff-ready product for the client.
- Integrated third-party REST APIs in collaboration with the backend developer by consuming and binding live data across all key UI components, ensuring seamless end-to-end data flow.

Investra — Micro-Investment Real Estate Platform (CodeCanyon Approved)

<https://investra.softivus.com>

Next.js, Radix UI, REST APIs, Custom Auth, Multiple Payment Methods

- Built an upgraded version of the FHR real estate platform with Radix UI, improved design, and enhanced features — approved on the CodeCanyon marketplace, meeting their quality and code standards.

ThemeForest HTML Templates

Autixum | Folixo

HTML, CSS, JavaScript, Figma

- Converted Figma designs into fully responsive, standards-compliant HTML templates across different niches by following ThemeForest quality, accessibility, and cross-browser requirements set by the platform.
- Wrote clean, well-commented and organized code across both templates, resulting in ThemeForest marketplace approval with zero revision requests from the review team.

ScholarWorld — Scholarship Management System

[Live](#) | [Frontend](#) | [Backend](#)

React, TanStack Query, Tailwind CSS, Firebase, Express.js, MongoDB, Stripe, JWT

- Built a multi-role scholarship platform with separate Admin, Moderator, and Applicant dashboards using JWT-based access control, with Stripe payment integration for in-app scholarship fee collection.

EDUCATION

Uttara University

2022 – 2026

B.Sc. in Computer Science and Engineering

CERTIFICATIONS

Complete Web Development — Programming Hero

[Certificate](#) | 2024
